

H A V I S H A M

"People will forget
what you said,
people will forget
what you did,
but people will
never forget how
you made them
feel."

~ Maya Angelou

HAVISHAM

Havisham is a London-based creative event studio designing and producing exciting, unforgettable experiences around the world.

Our clients range from individuals hosting a private event or celebration to companies looking to elevate and promote their brand and connect with their audience in a creative and innovative way.

We have sourced and styled extraordinary and exclusive locations around the world including abandoned palazzos, hidden historic underwater ballrooms and enchanted forests, as well as private access inside the Vatican to hold the ultimate dinner party.

Team

We work with our clients to translate their objectives into a considered, artistic concept that informs every detail throughout the event, producing a powerful, multi-sensory experience that connects with guests and showcases the message in a meaningful way.

The Havisham team is a collective of creative talent that have produced work for luxury fashion and lifestyle brands, iconic music artists, Hollywood producers and discerning high-profile individuals.

SERVICES

The expertise of our team combined with a global network of exceptional suppliers, offer a suite of services including creative direction, design, curation, production and logistics. Each event is tailored to the client's needs and can range from intimate private dinners, using a selection of our offering, to large product launches incorporating our full service.

- Creative direction and concept development
- Venue sourcing
- Installation design and venue styling
- Graphic design
- Guest list curation and management
- Private dining
- Event logistics and production

Proven

PROCESS

We start each project connecting with our clients to get a deep understanding of who they are and what they want to achieve, establishing the intrinsic purpose of the event.

Our creative team transforms this into an innovative and artistic concept that forms the event narrative and informs every element in the format and design of the production.

Our approach ensures that each event is genuinely established in meaning, producing a unique, authentic and impactful event.

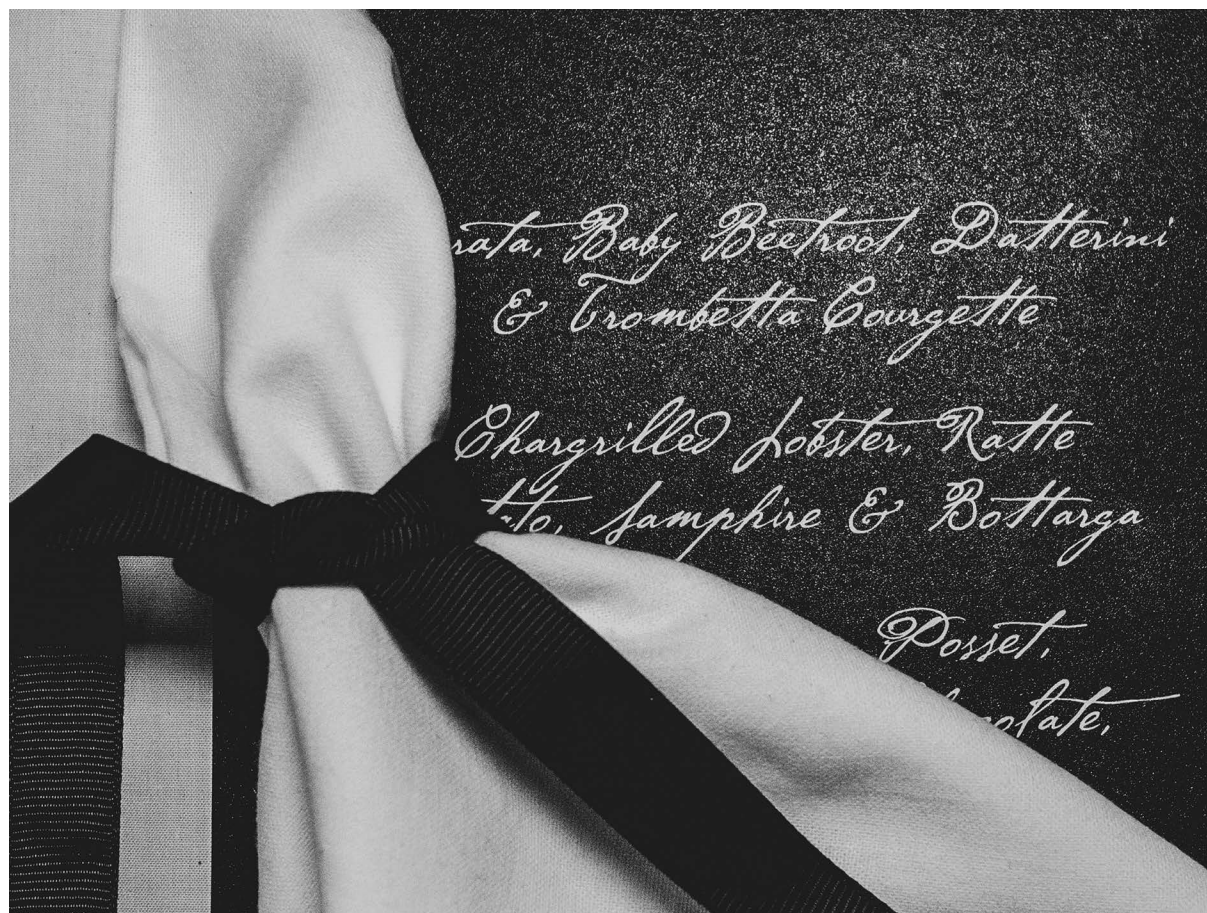

CREATIVE DIRECTION

The concept is at the heart of the event's creative and considered across every detail in the production. We develop original creative concepts in a variety of styles and mediums to form the event's visual language.

GRAPHIC DESIGN

We craft bespoke event stationery suites using custom typography, personalised details, original artwork and luxury materials initiating the event experience from the moment guests receive their invitation.

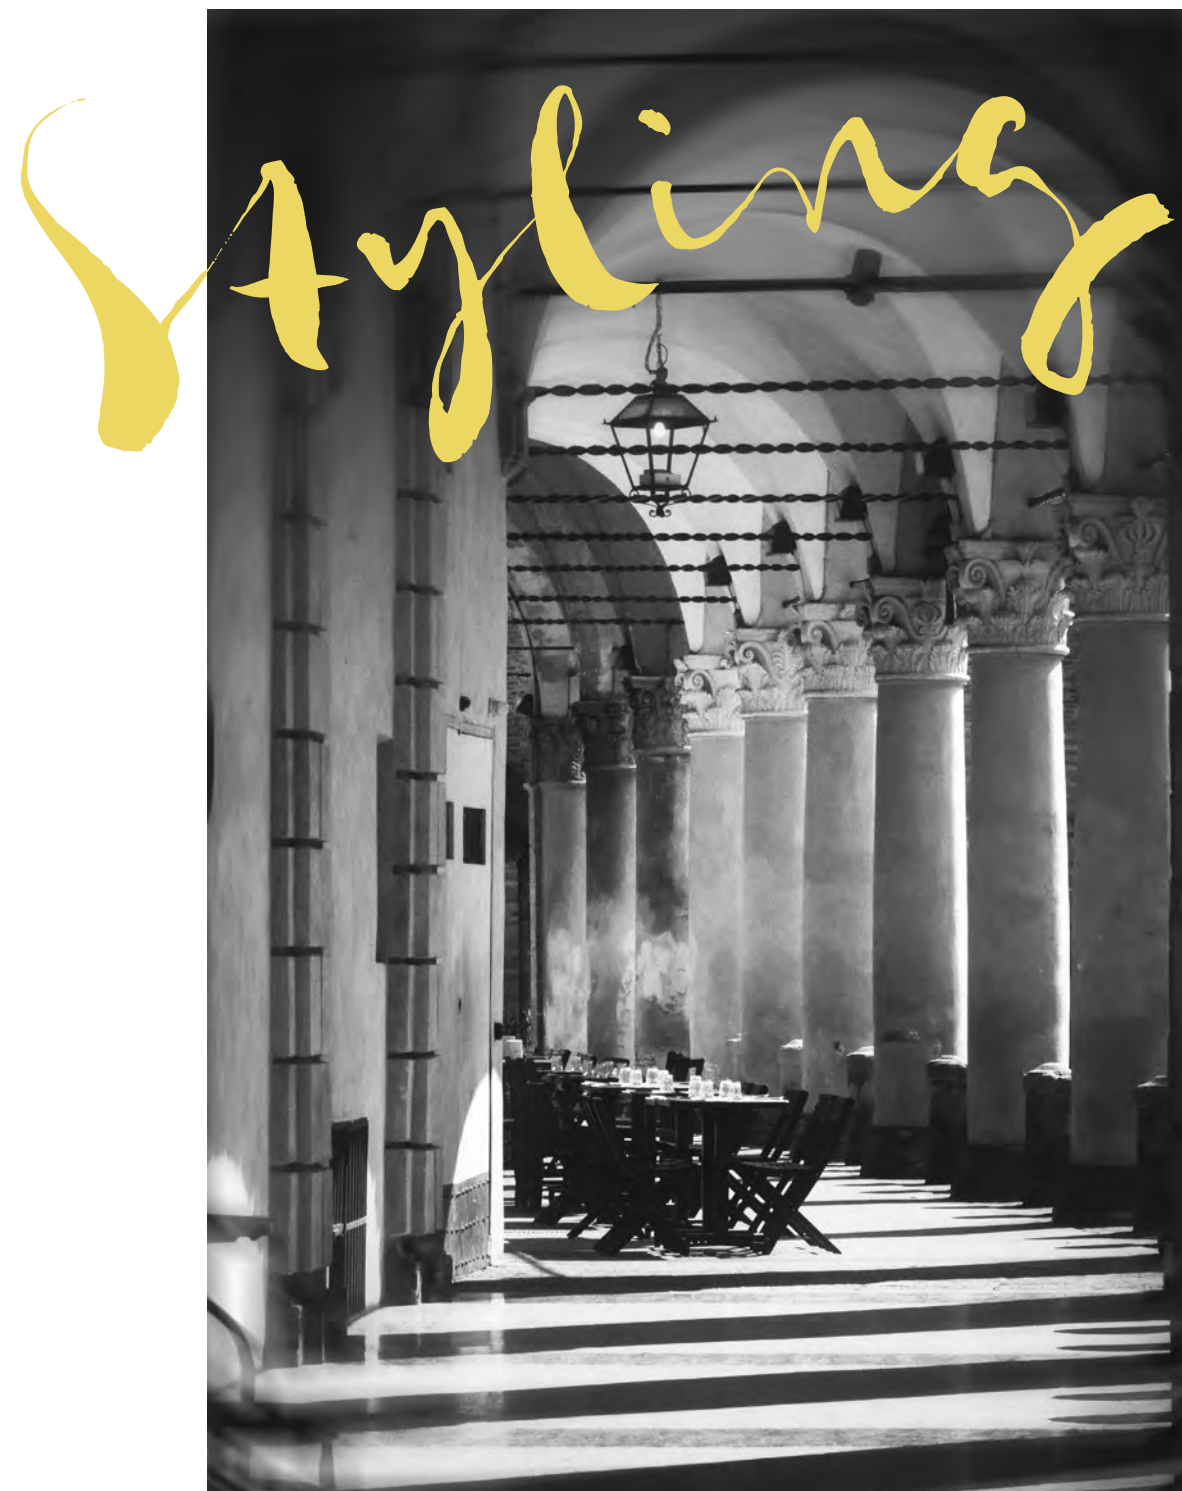

VENUE SOURCING

We have sourced and styled extraordinary and exclusive locations around the world including abandoned palazzos, hidden historic underwater ballrooms and enchanted forests, as well as private access inside the Vatican to hold the ultimate dinner party.

We consider multiple factors in the scouting process, from style and architecture to spatial flow, light and acoustics to achieve the perfect aesthetic, mood and atmosphere.

STYLING

Creative styling transforms a space into an experience, allowing guests to feel truly immersed in the event. We bring the event concept to life by creating and installing bespoke elements and original details in varying scale through multiple mediums including floral design, prop curation, art installations and motion graphic projections.

GUEST MANAGEMENT

Understanding and incorporating clients' objectives, we provide guest list advisory to carefully select an audience that produces maximum impact for the event. We also act as the central contact in distributing invitations, managing RSVPs and attending to any guest enquiries.

PRODUCTION

Our team carefully plan and flawlessly execute each event, with attention to detail from start to finish, including contract management, timeline and deadlines, event set up and breakdown and on the day coordination.
